E-DESIGN

E-DESIGN IS FUN!

Welcome! I am so excited to be part of your journey in transforming your home to the sanctuary of your dreams. I know just how important it is to feel at peace and blissfully happy with where you live. Allow me to explain just what it looks like for us to work together and paint a picture of the process for you. Decorating your home can be incredibly fun and I am here to hold your hand through the process (*all via email*).

Let's begin shall we?

PHASE ONE: Visualization

We begin by discovering your style. Think of your home style as an expression of your personality and the overall vibe of your family. You want your home to speak about who you are and who you want to be without saying any words.

YOUR HOMEWORK:

You will be responsible for putting together about 10-15 images of interiors that really inspire you and draw you in. It could be fashion, interiors, travel, etc. I want to see photos of what makes you come alive and the images that make you feel happy.

You will also be responsible for taking photos and detailed measurements of each room that you want decorated. There will also be a detailed questionnaire for you to fill out at the end of this packet.

PHASE TWO: Concept Creation

At this point we will be able to get a sense of the overall concept creation for your space. Once you have sent over ALL your homework, I'll do mine.

YOUR HOMEWORK:

You will review the board and mock up and get a feel for what you like and what you don't. Within 10 days, you will send me back further requests or needs. What you absolutely don't like and want to find something different. For each piece, I will source up to 2-3 items for you. Beyond that, you will need to draw from my the style and look of my suggestions and find your own.

WHAT YOU WILL GET:

Within 14 days of your package purchase, I will have put together a design concept for you. You will get a floor plan with layout ideas, mood board and list of sources of where to buy, what to order, etc.

Everything you need to design a CHIC room.

PACKAGE OPTIONS

E-design a super fun and simple process and if you have any further questions on how it all works, please don't hesitate to email me ashlina@thedecorista.com
